PROFESSIONAL EXPERIENCE

Citadel, Hong Kong

Aug 2025 - Sept 2026

Trader

- Traded pre-event, merger arbitrage, and distressed special-situation equities across Asian markets
- Analyzed merger agreements, closing conditions, appraisal rights, and squeeze-out statutes to assess deal probability, timing, and catalysts; participated in desk blocks, ECM, and liquidity events
- Managed beta, factor, and FX exposures via futures and swaps; partnered with quantitative research on portfolio construction for a \$5+ billion AUM special-situations portfolio

J.P. Morgan, Hong Kong

Aug 2022 - Jun 2025

Equities Sales Trader

- Executed equity orders and sourced liquidity across APAC markets for global institutional investors
- Published daily flow, liquidity, and cross-asset commentary and trade ideas for 500+ investors
- Chaired the APAC Analyst & Associate Council; led a 10-person committee that built training and support programs across Asian offices
- Partnered with Technology and Engineering to upgrade internal trading platforms; initiated and launched a client-data system for tailored coverage and customized color-sharing

J.P. Morgan, Hong Kong

Jun - Aug 2021

Summer Analyst, Global Markets

- Rotated across Credit Sales and Equities Sales Trading; presented ESG-principles investment research to senior high-yield sales and trading leadership
- Ranked top summer analyst and received top rating for team-based stock pitch presentation

Credit Suisse, Hong Kong

Jul - Aug 2020

Summer Analyst, Debt Capital Markets

- Supported syndication of structured lending facilities to private equity firms, hedge funds, and private-bank investors; built a deal-data framework that improved risk stratification

EDUCATION

University of Pennsylvania, Philadelphia, PA

2017 - 2022

M.S. in Computer and Information Technology, May 2022 (GPA: 3.9/4.0)

B.A. in Political Science (Dist), Minor in Mathematics, May 2021 (GPA: 3.9/4.0)

- Summa cum laude, elected Phi Beta Kappa; received Hong Kong Scholarship for Excellence Scheme
- Coursework in Machine Learning, Big Data Analytics, Probability, Game Theory, and Linear Algebra

INDEPENDENT PROJECTS

Exchange Filing Analyzer | *Python, data engineering, NLP*

- Built an end-to-end pipeline that scraped and full-text parsed ~1,000 HKEX filings into a 75-field dataset covering all 331 Hong Kong Main Board IPOs from 2023 through 1H 2026

Japan M&A Precedent Library | *Python, web scraping, data visualization*

- Built a primary-source-cited precedent library for Japanese M&A special situations from 2015 through 1H 2026 using official exchange and regulator disclosures
